SUBJECT: Report 07, Weekly Construction Update for Week Ending 05/21/2016

Construction that has occurred over the past week is as follows:

- All pile locations for the south and north abutments were laid out by surveyors.

Construction that is currently planned for this coming week is as follows:

- 2' diameter holes will be augured at each pile location at the north abutment. Each hole is 12' deep.
- Test piles will be driven at the south and north abutments. Production pile lengths will be determined based on the test pile results.
- Production piles will be driven in their permanent locations at both the south and north abutments.
- Earthwork will continue.

The project is being overseen by the Peoria County Highway Department. The current estimated completion date is October 2016. Weather and unforeseen conditions will always affect the schedule.
