**SUBJECT:** Report 08, Weekly Construction Update for Week Ending 06/04/2016

---

Construction that has occurred over the past week is as follows:

- All production piles were driven for the south and north abutments of the bridge,
- Both the south and north abutments were built to the point where they are ready for the placement of the steel bridge beams.
- Earthwork continued for the slopes NW of the new bridge.

Construction that is currently planned for this coming week is as follows:

- Perform channel excavation in the creek between the new bridge abutments.
- Riprap will be installed on the bridge abutment slopes and across the creek channel.
- Delivery of the steel bridge beams will occur.
- Earthwork will continue.

The project is being overseen by the Peoria County Highway Department. The current estimated completion date is October 2016. Weather and unforeseen conditions will always affect the schedule.
