SUBJECT: Report 15, Weekly Construction Update for Week Ending 08/06/2016

Construction that has occurred over the past 2 weeks is as follows:

- The bridge approach slabs were poured on 08-03-16, and are undergoing a 7-day wet curing process.
- Earthwork resumed.
- The roadway north of the bridge, was excavated and prepared for the installation of the aggregate base of the new pavement.

Construction that is currently planned for this coming week is as follows:

- Both approach slabs will complete their curing process and then strength tests.
- Road work will continue north of the bridge.
- Short sections of concrete curb & gutter will be constructed at each corner of the bridge.
- Bituminous Flexible Connectors will be constructed at each bridge abutment.
- Bridge parapet rebar will be assembled
- Bridge parapets will be constructed using a slipform process. This work dependent of the bridge approach slabs passing their required strength tests.

The project is being overseen by the Peoria County Highway Department. The current estimated completion date is October 2016. Weather and unforeseen conditions will always affect the schedule.
