SUBJECT: Lancaster Road Bridge Replacement

Stark Excavating began placement of the storm sewers and culverts this past week. They started down by the bridge on Croy Ln and the private entrance on the south side of the road. This work is necessary for the relocation of the two roads.

Next week, Stark plans to continue working on storm sewers, working their way west up the hill. Miller and Son, will be on site to begin the earthwork and build up Croy Ln and the private entrance on the south side.

During construction, Lancaster Road will remain CLOSED to through traffic. However, residents will still have access to their homes and property.
