**SUBJECT:** Lancaster Road Bridge Replacement

---

Last week Stark completed the testing for the new water main. Stark also excavated and placed some riprap downstream of the concrete gutter outlets.

This week the new water main should be put in to service. There will be a boil order for Croy Lane residents. They will be notified what day that is. This week Stark will continue to place riprap and start pouring concrete gutters and outlets. Also this week Miller & Sons Exc. might work on remaining earthwork.

During construction, Lancaster Road will remain CLOSED to through traffic. However, residents will still have access to their homes and property. With the existing roadway removed access will be maintained on gravel until the new pavement is installed later this year.

Weekly newsletters can be found on the Peoria County website at:
