**SUBJECT:** Lancaster Road Bridge Replacement

---

Last week Stark Exc. graded, set forms, and poured 3 concrete gutter outlets. Stark also excavated and set forms for paved ditch. Stark also graded for gutter adjacent to pavement.

This week all Lancaster Rd. residents water service were connected to new water main. There will still be a boil order for Croy Lane residents in the near future. Notification will be sent as soon as the date is confirmed. This week Stark is pouring concrete gutters, outlets, and paved ditch. Stark is also placing riprap in drainage ditch on north side of Lancaster Rd. Also this week Miller & Sons Exc. did earth work on east side of bridge.

As of today access to the east across bridge is prohibited until further notice so aggregate base for roadway can be placed.

During construction, Lancaster Road will remain CLOSED to through traffic. However, residents will still have access to their homes and property. With the existing roadway removed access will be maintained on gravel until the new pavement is installed later this year.

Weekly newsletters can be found on the Peoria County website at:
