SUBJECT: Report 03, Weekly Construction Update for Week Ending 04/01/2017

Construction that has occurred over the past week is as follows:

- All of the bridge piling was driven for both the north and south bridge abutments. The rainy weather greatly hindered the progress of the construction this week.

Construction that is currently planned for this coming week is as follows:

- Construction of the bridge abutments will begin.
- Installation of the riprap which armors the bridge abutments might begin, if the creek water level will drop back to normal.

The project is being overseen by the Peoria County Highway Department. The current estimated completion date is October 2017. Weather and unforeseen conditions will always affect the schedule.
