

# NON-FORMAL RECYCLING EDUCATION PROGRAMS

For Groups

After-school programs  
Scout groups  
Interest groups  
Summer camps  
School camps

## Program Ideas:

**All About Trees:** The session time will vary. The topics covered will be photosynthesis, parts of a tree, and a paper making session at the end. There will need to be a water source available for this one.

**Recycle 1,2,3:** This session focuses on why one would want to recycle, what can be recycled in Peoria County, a recycle relay, products that are made from recycled content, and a possible sight clean-up (supplies provided).  
Session time will vary.

**How Much Did Your Shirt Cost the Earth?:** This session is for 6th grade and up. It focuses on the environmental impact of the consumer choices we make. It can cover 2-4 sessions depending upon time.

**Vermi-composting:** This session discusses one of the ways in which your food waste can be recycled: vermi-composting. It includes an opportunity for the participants to meet, observe and play with the worms!
