Kickapoo-Edwards Road Users

Re: Kickapoo-Edwards Road Construction Project Summary

To Whom it May Concern,

The construction project on Kickapoo-Edwards Road between Shamrock Lane and Countyside Lane is a Safety Project funded with Federal Highway Safety Improvement Project. 90% of the cost of the project is being funded with Federal Funds, and the remaining 10% is being paid with Motor Fuel Tax Funds.

The project entails widening the shoulders to help eliminate vehicles leaving the roadway and flattening the ditch slopes to reduce the severity of accidents if vehicles do leave the roadway. No work will be done to the road itself, except for pavement markings after the work is complete.

Work is projected to be completed by mid-September.

Respectfully Submitted,

Amy Benecke McLaren, P.E.
County Engineer
